PROJECTS

Mobile App - Turtle Squad   **Google Play: 4.82/5** ★

Addictive adventure game based on "The 12 Labors Of Hercules". Starring cute but dangerous turtles. Built on Unity Engine (C#), multiple levels, in-app purchases, and ad-supported game rewards.

Mobile App – Rollocoball   **Google Play: 4.35/5** ★

A 2D tap and play game that challenges the player's reaction skills. Inspired by the idea of roller coasters in New York, Las Vegas and Los Angeles. Built on Unity Engine (C#).

Web App – Colors   **https://colorappfront.herokuapp.com**

An easy web app that helps designers to isolate specific colors in their images. Built with React, Node.js, and Express for detecting dominant colors on uploaded images.

EXPERIENCE

Sep 2017 – May 2018 (8 Months)
Partner Business Manager at **Hewlett Packard Enterprise**
Moscow, Russia.
Established relationships with partners at all organization levels including senior executives. Increased number of Silver partners by 10%. Increased HPE offerings of five partners' businesses by 50% in revenue.
